

## Dynalectric Oregon—Serving the Pacific Northwest For 80+ Years

**Our technologies division is focused on providing customers with specialized and proven cabling services. Whether for small single-facility installations, large multi-building campuses or mission critical environments, our technicians are trained and certified to provide innovative low-voltage solutions.**

### Dynalectric Oregon provides:

- » Equipment room design and installation
- » 25-year factory warranties
- » Full Auto CAD & as-built documentation
- » Quality installations on time and on schedule
- » Factory certified technicians

Since 2002, we have provided low voltage solutions that address the industry needs of clients across the Pacific Northwest.

By staying up-to-date with the latest technological innovations and best installation practices, we are able to provide benefit to the end-user through design input that leads to a superior build.

Skill and experience make us the right choice for your low voltage projects.
